WORK EXPERIENCE

Full Stack Developer 02/2026 – 08/2026 Standard Digitals | Remote (India)

- Architected and shipped scalable full-stack web applications using **React.js**, **Next.js**, **Node.js**, and **TypeScript** for high-growth agency clients.
- Engineered custom AI automation workflows and lead-generation tools, boosting user engagement and client campaign conversion performance.
- Integrated WhatsApp Business API and RESTful services for automated client notifications, CRM sync, and real-time messaging.
- Optimized Core Web Vitals and frontend bundle payloads, cutting initial page load times by **35%**.

Sr. Frontend Engineer 07/2021 – 01/2026 NexG Tech | New Delhi (Remote)

- Delivered robust enterprise web platforms using **React.js**, **Next.js**, **TypeScript**, and scalable state management architectures.
- Engineered enterprise SaaS dashboards for HRMS, CRM, Payroll, and Billing systems with dynamic data filters and role-based access control.
- Built modular, reusable component design systems, improving cross-team delivery velocity and codebase maintainability.
- Spearheaded code reviews, frontend performance benchmarking, and technical alignment across distributed engineering squads.

Frontend Engineer 05/2020 – 06/2021 Synergy Techs | Hyderabad (Remote)

- Developed responsive, mobile-first web interfaces with React.js, Next.js, and modern CSS utility frameworks.
- Ensured seamless cross-browser functionality through automated unit testing, debugging, and continuous profiling.
- Collaborated closely with UI/UX designers and backend teams to ship feature releases consistently ahead of schedule.

Data Entry Executive (DEE) 05/2016 – 10/2016 NRC Assam | Sribhumi

- Digitized, audited, and verified thousands of citizen identity records for the National Register of Citizens (NRC).
- Maintained strict data accuracy, confidentiality protocols, and zero-defect records under tight statutory deadlines.

KEY FEATURED PROJECTS

ClinicGo & Erestro Platforms Next.js • Node.js • MongoDB Engineered full-stack SaaS healthcare and restaurant management systems featuring real-time appointment booking, online ordering, and automated invoice billing.

NexG Enterprise Suite (HRMS, CRM & Payroll) React • TypeScript • Tailwind Architected high-throughput operational dashboards managing employee lifecycle, payroll disbursements, and dynamic analytics with role-based access control.

LEADERSHIP & ACTIVITIES

Member & Team Lead (Squad Guide) 03/2014 – 04/2016 Mahabir Public Higher Secondary School | Sribhumi

- Led the winning team in the 2016 Squad Guide competition; awarded *Great Dedicator Certificate* for exceptional commitment and school leadership.
- Organized extracurricular team-building activities, community outreach programs, and student coordination initiatives.

TECHNICAL SKILLS

FRONTEND & UI

React.jsNext.js (App/RSC)TypeScript

JavaScript (ES6+)Redux / ZustandTailwind CSS

Vite / WebpackFigma / XD

EDUCATION

Diploma in Elementary Education (D.EL.ED)
SCERT Assam | Sribhumi
03/2019 – 04/2021
Pedagogy, collaborative instruction & structured planning.

Higher Secondary (Arts)
Mahabir Public Higher Secondary School
2014 – 2016
High academic standing; squad leadership honors.

CERTIFICATIONS

Web Programming (6-Month Cert)
APLL, Karimganj, Assam
03/2019 – 08/2019
Full-stack web fundamentals, JavaScript DOM, databases.

KEY HIGHLIGHTS

- ✓ Built 15+ production apps serving thousands of users.
- ✓ Automated WhatsApp API & AI lead workflows.
- ✓ Cut Next.js bundle loads by 35% via RSC.
- ✓ Advocate of clean architecture, CI/CD, and accessibility.

INTERESTS & HOBBIES

- Coding passion projects & experimenting with AI tools
- Exploring cutting-edge UI/UX design trends
- Cricket & athletic team leadership
